Folklore Galore!

After reading some tall tales in class, select your favorite one. In groups of three or four develop a readers' theater project that meets the following guidelines.

Checklist:

_____ Presentation (here you should incorporate acting and storytelling techniques to recreate the story for the class; everyone in group must participate)

_____ Visual Aid (create a visual aid for your story– this can be a PowerPoint, a poster, mobile, shadow box, etc.)

_____ Be sure you tell the story accurately—do not change or delete details that are necessary to understanding the tale.

You may use cue cards, scripts, note cards, etc. Be sure your presentation is well-organized and dramatic. It should be a minimum of 5 minutes in length.

GOOD LUCK!
